

**NEW**

**ENiTo™**

SCRUB    SCRATCH    WATER    IMPACT    ABRASION    WEAR    LIGHT    RESISTANCE

**IMPROVED Pre finished flooring**

**ENiTo Flooring is a leader in the flooring industry with its unique collection of sustainable and durable Coconut Palm Wood flooring.**

The NEW improved pre-finished flooring collection is coated with a superior UV coating, which is an anti avrasive coating that combines a smooth finish with the highest resistance against scrub, scratch, water, impact, abrasion, wear and light. The coating does not contain formaldehyde, VOC or other dangerous substances.

We are pleased to report that the new pre-finished collection exceed all international surface requirements imposed on wood flooring products in order to warranty safety, durability and eco efficiency.

The ENiTo Coconut palm wood flooring, is a true sustainable flooring, pre-finished for durability and stability.

1. Cross Hatch Adhesion	ASTM D3359	>4B
2. Taber Abrasion (S33)	ASTM D4060	>500 (IP)
3. Scrape Adhesion	ASTM D2197	>2000g
4. 3 Cycle Soak Test	ANSI/HPVA-2000-4.6	Pass
5. Coefficient of Friction	ASTM D2394	>0.45
6. Chemical STaining	ASTM D3023	<3
7. Gloss Retention	ASTM D2486	+/-5 points (at 60)
8. Wear Resistance (falling sand)	EN 13696	>1000
9. Impact Resistance	EN 428-2	>6N
10. Scratch resistance	EN 438-2	Grade 3
11. Scrub Resistance	IHD 445	0-1
12. Linear Scratch (coin test)	TC_01	>20N
13. Accelerated Aging (CC)	TC_08	> 5 cycles
